Fitness Center Interns and Survey

Bill Burtner has two new interns working with him in the Fitness Center. Please welcome Bethany and Peyton. Bethany and Peyton are students at Slippery Rock University and would like to create a program for you as part of their education. Their hope is to create a friendly competition to motivate and inspire you to increase your physical activity. Recently, you received a survey that asks questions regarding your current physical activity and what you may like to see in a program. This survey will provide them with information that will be used to structure a program that fits your needs and wants, in hopes that you are likely to participate. If you have questions, please contact Bill at ext. 8543.
